Help the Salem-Morrow Fire Department Protect Your Dreams

The quicker the Salem-Morrow Fire Department's firefighters or EMT's can locate you, the quicker we can begin helping you and your family. In an effort to locate your home or business in an emergency, the Salem-Morrow Fire Department is providing a 6" x 18" reflective sign that will clearly display your street address. These signs are invaluable to firefighters, EMT's, and police officers, who may be looking for your home in your time of need. Similar signs have been installed in other communities with startling results. The Salem-Morrow Fire Department is selling these signs at the low cost of \$12.00 each. If you wish to have the SMFD mount your sign for you, they will do so for \$14.00. Each sign has your street address prominently displayed on both sides in highly reflective 3" numbers against a green background similar to those on an interstate sign. The signs are installed in such a way that assures their visibility, even in high grass and snowy weather conditions. If you would like to purchase one of these signs, simply print and complete the form below and either return it in person to the Salem-Morrow Fire Department, 5270 East U. S. Route 22 & State Route 3, Morrow, Ohio 45152, or mail the completed form and check, made payable to the Salem-Morrow Fire Department, to Salem-Morrow Fire Department, Post Office Box 161, Morrow, Ohio 45152. In approximately 7 days, your sign will be ready for pickup or installation. Generally, the signs can be made, while you wait, in less than 10 minutes. Isn't \$12.00 worth the peace of mind of knowing that help can find you in your time of need?

A Touch of Humor, "To Morrow"

One of our readers emailed this to me and thought it might be fun to include in our newsletter. I'm sure many of you have likely seen what's in the link, but for those that haven't - enjoy. It is interesting to think that Morrow was once recognized on a national level. The Muppets performed this version of "To Morrow" on national TV in the early years of their show, I believe in the early 1970's. Enjoy!

<http://www.youtube.com/watch?v=JEilPR1PXko>

The original Kingston Trio of Bob Shane, Nick Reynolds, and Dave Guard performs an old train song from the nineteenth century popularized in the 1950s by the late Bob Gibson, one of the seminal performers in the pop folk boom. Gibson had adapted the song from performer Lew Sully's 1898 copyrighted version; Sully likely borrowed the tune from a traditional Irish song.

"To Morrow" appeared on "String Along," (1960) which was the KT's fifth consecutive studio album to reach the number one spot on the "Billboard Magazine" charts, where it stayed for ten weeks and earned the Trio its fifth gold record.

Few artists today have matched the Kingston Trio's chart success of fifty years ago. Their 46 total weeks with an album in the top spot still ranks among the best ever for any artist that "Billboard" has ever tracked.

Many inventions that are little noted but are historically significant are a result of Dayton's dominance in the manufacturing of toys 100 years ago. This talk will increase the awareness of the important role toys played in the vivid manufacturing and entrepreneurial history of Dayton, Ohio and the Miami Valley. Speaker: William C. Gallagher is co-author of the book *The History of Dayton, Ohio Toy Makers* and four other books on toys. May Lunch & Learn – It Cures Like Magic: The Fads and Frauds of the Golden Age of Patent Medicine Quackery – May 21

Topic: 19th century America witnessed a boom in the "patent medicine" industry. Patent medicines were NOT medicines that had been "patented" but rather "secret formulas" and unproven remedies that were sold directly to the public as medical cures. Some patent medicines did very little harm; others actually delivered their promised results, albeit often with very dangerous ingredients; and still others were what amounts to poisons. Dennis will display and discuss the supposed curative properties of some his personal collection of patent medicine potions, and bottles, many of which were actually from Warren County.

Speaker: Dennis E. Dalton is the author of the book Waynesville and Wayne Township, as well as a history researcher, lecturer and storyteller. He is a native of Waynesville, Ohio where his maternal roots go back to the family of Daniel Boone.

The History Fund Needs Your Help!

In this New Year, the Ohio Historical Society is launching a campaign to promote contributions to its tax check-off box on Ohio's state income tax return. That little box is the source of support for 99.7% of the History Fund grant program. We need your help to promote the tax check-off. The more OHS receives through the tax check-off on state returns, the more grants it can make to local historical organizations like Warren County historical Society. (At the very least, OHS needs to generate a minimum of \$150,000 in contributions through the tax check-off in 2014 or in 2016 the tax check-off box could disappear).

The work of the Hopewell people who lived in Ohio circa 100 B.C. to A.D. 400, these geometric earthworks covered nearly five square miles, using more than seven million cubic feet of earth. Why did the Hopewell build such monumental works? Were they prehistoric forts or ancient American cathedrals?

His primary areas of interest include North America's Ice Age peoples, Ohio's magnificent mounds and earthworks, and the history of Archaeology. Noteworthy research includes excavation of the Burning Tree mastodon and discovery of the Great Hopewell Road, featured in a recent documentary.

We want to know what you like and dislike, about the Little Miami Trail, and how we can improve it.

This survey is attempting to find out many things about your trail experience, and we hope that you value the Trail and our 100% volunteer group, enough to participate in this survey. There are 12 sections and should only take about 5 minutes to complete.

Please forward this survey to anyone that you believe has an interest in using, or improving the trail. There is a link at the bottom of this block that makes forwarding very easy. We also encourage each member of your household to submit their own survey.

All of your comments and answers will be combined with the other respondents and will be used to help guide decisions made by the Board of the Friends of the Little Miami State Park. (FLMSP)

We have safeguards in place to ensure your privacy, if you chose to give us your contact information we may contact you, if you do not, we will remove all tracking data prior to sharing any results. Thank you in advance for your help.

[Take this survey](#)

Thank you for participating in the survey, we anticipate that your feedback will help us to plan future improvements to the trail.

The survey questions are the compilation of many people's efforts, and a lot of thought. As a board we felt that we needed to reach out to our Customers (mainly Trail Users), Members, and all other interested parties, to ensure that we are representing you, and spending our limited funds wisely.

Embracing Energy Efficiency...and Your Utility Bill

By Guest Blogger Alexis Powers, Digital Communications Specialist at the [National Renewable Energy Laboratory, U.S. Department of Energy](#)

How do you feel when your monthly utility bill comes in the mail? Excited? Probably not. Curious? Maybe. Nervous? Possibly. The typical American household spends about \$2,000 every year to heat, cool, light and run appliances in the home. Those monthly utility bills can be especially unwelcome for low-income families, who spend about six percent of their total earnings to power basic needs.

Would you like to save about \$400 each year with free home energy upgrades, even if you rent or live in a mobile home? Absolutely. For an estimated 20 to 30 million U.S. households, this possibility is a reality through the [Energy Department's Weatherization Assistance Program \(WAP\)](#).

WAP helps lower heating and cooling costs for low-income families by improving the energy efficiency of their homes while ensuring their health and safety. When applying for weatherization services, the program gives priority to people over 60 years of age, families with one or more members who have a disability and households with children....[Read More about Embracing Energy Efficiency](#)

Start the Conversation Early About the Dangers of Underage Drinking

Most young people ages 12 to 20 do not drink. However, in 2012, about 9.3 million young people in this age group, or one out of four, had used alcohol. It is important to talk with young people early and often about the dangers of underage drinking. Helping them to understand that they do not need to drink to fit in and have fun is key. It is also important to teach them ways to say no and how to cope with peer pressure. Teachers and parents can use the resources on Too Smart to Start to begin the conversation.
