Please support the Salem/Morrow Fire Department on November 4, 2014

The Salem/Morrow Fire Department is working hard to continue to provide Salem Township residents with high quality Fire and Emergency Medical services. Unfortunately without additional funding, the Department will not be able to maintain its current level of services. The Department is in dire need of volunteers and additional funds to maintain its current level of services.

The Salem/Morrow Fire Levy Committee is asking for your support of the proposed fire levy, which will be on the November 4th ballot. This is a 5 year, 6.5 millage levy for the operations of the Department. By supporting this levy, the Department will be able to continue the program they currently provide by adding much needed personnel to replace the declining volunteer staff.

In addition, the Department needs to replace worn out or outdated equipment, including 2 ambulances, 1 tanker, 27 air packs and masks, 3 heart monitors and 30 sets of turnout gear that have reached the end of their useful lives. This equipment cannot all be replaced in the next 5 years, but the plan is to replace those pieces that are most critical, and to put in place a program to replace the rest over time. Replacing the heart monitors is critical to be able to continue Paramedic services. The Department has submitted grant applications to help replace some of this equipment, but to date, no grants have been awarded.

If the levy does not pass, Salem/Morrow Fire Department will continue to provide Fire and Emergency Medical Services to its residents, but the residents may see increases in the response times due to limited personnel. With the decrease in the number of volunteer firefighters, mutual aid requests from neighboring departments will become increasingly required, which adds to the response time for our residents. If you are having a heart attack, or your house is on fire, you should not have to wait for the services the Department would be able to provide with adequate manpower. The volunteer staff has decreased from 30 in 1996 to 6 in 2014. The run volume has increased from 450 in 2002 to 928 in 2013.

The cost of the 5-year levy will be \$0.62 per day or \$227.24 per year per \$100,000 of property tax valuation. At the end of the 5 years, the financial situation will be reevaluated. The Department will continue to apply for every grant they are eligible for to help offset the costs of operations, as well as continue to recruit volunteer personnel.

If you would like to volunteer with the Salem/Morrow Fire Department, please stop by the Fire Station to fill out an application. Please talk with your friends, family and neighbors about passing the fire levy.

HELP US HELP YOU. Please Support the Salem/Morrow Fire Department – VOTE YES on November 4th.

Help the Salem-Morrow Fire Department Protect Your Dreams

The quicker the Salem-Morrow Fire Department’s firefighters or EMT’s can locate you, the quicker we can begin helping you and your family. In an effort to locate your home or business in an emergency, the Salem-Morrow Fire Department is providing a 6” x 18” reflective sign that will clearly display your street address. These signs are invaluable to firefighters, EMT’s, and police officers, who may be looking for your home in your time of need. Similar signs have been installed in other communities with startling results. The Salem-Morrow Fire Department is selling these signs at the low cost of \$12.00 each. If you wish to have the SMFD mount your sign for you, they will do so for \$14.00. Each sign has your street address prominently displayed

on both sides in highly reflective 3" numbers against a green background similar to those on an interstate sign. The signs are installed in such a way that assures their visibility, even in high grass and snowy weather conditions. If you would like to purchase one of these signs, simply stop by the Salem-Morrow Fire Department, 5270 East U. S. Route 22 & State Route 3, Morrow, Ohio 45152, to complete an order form. In approximately 7 days, your sign will be ready for pickup or installation. Generally, the signs can be made, while you wait, in less than 10 minutes. Isn't \$12.00 worth the peace of mind of knowing that help can find you in your time of need?

National Fire Prevention Week – October 5-11

"Smoke Alarms Save Lives: Test Yours Every Month"

About Fire Prevention Week

Fire Prevention Week was established to commemorate the Great Chicago Fire, the tragic 1871 conflagration that killed more than 250 people, left 100,000 homeless, destroyed more than 17,400 structures and burned more than 2,000 acres. The fire began on October 8, but continued into and did most of its damage on October 9, 1871.

Commemorating a conflagration

According to popular legend, the fire broke out after a cow - belonging to Mrs. Catherine O'Leary - kicked over a lamp, setting first the barn, then the whole city on fire. Chances are you've heard some version of this story yourself; people have been blaming the Great Chicago Fire on the cow and Mrs. O'Leary, for more than 130 years. But recent research by Chicago historian Robert Cromie has helped to debunk this version of events.

The 'Moo' myth

Like any good story, the 'case of the cow' has some truth to it. The great fire almost certainly started near the barn where Mrs. O'Leary kept her five milking cows. But there is no proof that O'Leary was in the barn when the fire broke out - or that a jumpy cow sparked the blaze. Mrs. O'Leary herself swore that she'd been in bed early that night, and that the cows were also tucked in for the evening.

But if a cow wasn't to blame for the huge fire, what was? Over the years, journalists and historians have offered plenty of theories. Some blamed the blaze on a couple of neighborhood boys who were near the barn sneaking cigarettes. Others believed that a neighbor of the O'Leary's may have started the fire. Some people have speculated that a fiery meteorite may have fallen to earth on October 8, starting several fires that day - in Michigan and Wisconsin, as well as in Chicago.

The biggest blaze that week

While the Great Chicago Fire was the best-known blaze to start during this fiery two-day stretch, it wasn't the

Quaker Heritage Center News

The Quaker Heritage Center Presents “All Is Calm: The Christmas Truce of 1914” – November 11, 13 & 15

The events that have eventually brought about the Christmas Eve truce of 1914 create one of those stories that almost defy believability. While Pope Benedict XV had suggested a temporary hiatus of the war for the celebration of Christmas, the warring countries refused any official cease-fire. But on Christmas Eve, many German and British troops sang Christmas carols to each other across the lines, and on Christmas Day, soldiers from each side emerged from the trenches to exchange presents of cigarettes and plum puddings, sing carols and songs, and play soccer. That the truce did indeed happen, and that we can experience that story by way of the recollections and words of those who were there, make for an incredibly compelling story of the better parts of human nature winning out in an unbelievably horrible situation.

"The young men who found themselves in the trenches that Christmas were experiencing a type of warfare that was incomprehensible to all of them," Cantabile Director Steven Haines said. "That so many of them dealt with the horrors through the written word is equally astonishing. Yet, write they did; leaving us with words that are full of pathos, humor, confession, and revelation. Collectively they left us with a 'script' that no single author could have written, let alone imagined." That "script" takes the form of "All Is Calm," a choral performance by the Cantabile Men's Ensemble, which will be presented at the Quaker Heritage Center on November 11, 13, and 15, 2014, at 7:30 pm. The performance offers the words left behind combined with music to tell this story without interference from an author's intrusion. The poetry, letters, journal entries and random musings tell a profound and moving story without the need for any further embellishment. Inhumanity gave way to sense and civility for short time during the early months of one of the most horrific events in world history. "As a director of theatre and music," Haines noted, "I constantly work discover and tell stories and move us and change us. In this case, the effect is even more compelling because we are using only the words and the songs of those who actually lived it."

The program is being offered in conjunction with "The Pity of War: Words and Images of World War I," a student-produced exhibit on display at the Quaker Heritage Center of Wilmington College through December 12, 2014. The Center is open Monday through Friday, 9 a.m. to 4 p.m., and the last Saturday of each month, 12 noon to 5 p.m.

Contact Ruth M. Brindle, Curator, or visit www.wilmington.edu/qhc for more information on the exhibit and a full calendar of events.

New Exhibit to Open at the Quaker Heritage Center – Now through December 12

100 years ago, one of the Earth's most deadly conflicts began: World War I. By the end of "The War to End All Wars," over 37 million people were dead, wounded, or listed missing. "It's a story that we tend to forget," said Ruth Brindle, Curator of the Quaker Heritage Center. "World War I is often overshadowed by World War II, particularly here in the United States, where the war's impact wasn't felt as acutely as it was in Europe. That's why we felt this exhibit - *The Pity of War: Words and Images of World War I* - is necessary."

The exhibit **will be on display through December 12, 2014**, and opens with a brief overview of the chronology of the war itself, then delves into the stories of those who lived through those events as soldiers, civilians, and Conscientious Objectors. "Using the words of these individuals, and highlighting those stories with images from the period, really brings the experience home on a personal level," Brindle noted. Of particular interest to the mission of the Quaker Heritage Center is the inclusion of stories of individual Quakers who registered as Conscientious Objectors or volunteered for relief work in war-torn Europe. That particular interest is why Stephen Angell, Geraldine Leatherock Professor of Quaker Studies at Earlham School of Religion, will be the guest lecturer at the exhibit opening. His talk, "A. Neave Brayshaw and the Re-Invigoration of the Quaker Peace Testimony During World War I," will explore the way the Religious Society of Friends (Quakers) responded to the War.

The exhibit will be on display at the Quaker Heritage Center of Wilmington College from July 28 through December 12, 2014. The Center is open Monday through Friday, 9 a.m. to 4 p.m., and the last Saturday of each month, 12 noon to 5 p.m. Other special programming is planned for September and November.

Contact Ruth M. Brindle, Curator, or visit www.wilmington.edu/qhc for more information on the exhibit and a full calendar of events.

Viox Excavating 6-Month Reminder

It's time to divert your septic system. Doing this twice a year helps your septic or mound system lasts a lifetime. For more insights, see our free report [Prevent Septic System Nightmares! 6 Things You Need To Know](#).

Diverting Your Septic System Instructions

1. You'll need a "key" to do this. One was provided as a part of the septic system installation and may be stored inside one of the risers on your tank. If your key has been misplaced, a replacement can be purchased from your local hardware store.
2. Take the lid off the white PVC pipe that sticks up out of the ground. You will see a 1 and 2 at the 11:00 and 1:00 positions. (If they are obscured by mud, pour water in to rinse them.)
3. Use the key to turn the valve to the other number. It may be quite difficult to turn but will not break.
4. Return the lid and forget about it until you receive your next reminder in 6 months.

Additional Reminders

Six months from now, and every 6 months thereafter, you'll receive an email reminding you to divert your system. If you move or want to stop receiving the reminders, you can always unsubscribe at the bottom of each email.

Viox Excavating

We're pleased to help you with all your excavating needs. In addition to septic and mound systems, we do:

- Pond Repairs
- Complete Lot Development
- Install Hauled Water Storage Systems
- Other Excavating Services

Please let us know if there is any way we can help.

Thanks,

Enjoy a Healthy Lunch at the Earl J. Maag Center

Are you tired of always eating alone? Is cooking becoming too much work? Are you looking for somewhere else to eat? Would you like to meet new friends and enjoy stimulating conversation? Are you finding it hard to make ends meet? If you answered "Yes" to any of these questions, then you may not be living as healthy as you can. Recent studies have shown that seniors who are live alone are at high risk for malnourishment and for dehydration. "Five days a week, fresh, nutritious meals are cooked in the WCCS 741 Center kitchen. Lunch is a special time of day and we try to make it even more so. Sometimes the WCCS lunch is that person's only full meal of the day. You can find a healthy, delicious meal at the Earl J. Maag Center, 124 Pamela Drive, Morrow, Ohio 45152," says Mary Catherine Faller, MS, RD, LD, Manager of WCCS' Nutrition Services.

Lunch with two menu options is served at 12:00 pm (noon) every Monday-Friday. Find the daily menus online at www.wccsi.org. Treasury to Reduce Tax Benefits of Corporate Inversions

Article from the Ohio Society of CPA's...

The U.S. Treasury Department has changed some key tax rules to discourage so-called "tax inversions," in which American companies reincorporate their headquarters overseas to avoid U.S. taxes. The newly tightened rules make it more difficult to use cash that a company might be gathering in foreign countries.

The Treasury and the IRS on Sept. 22 issued Notice 2014-52 that takes targeted action to reduce the tax benefits

of — and when possible, stop — corporate tax inversions. The Treasury has said such transactions erode the U.S. tax base, unfairly placing a larger burden on all other taxpayers.

Some officials had previously spoken of making rule changes retroactive to a certain date — thus affecting companies that couldn't possibly know such a change was coming — but these new guidelines only apply to deals that had not closed as of Sept. 22.

More than two years ago, President Obama laid out his framework for business tax reform. In addition, the Administration's FY 2015 budget included a legislative plan to reduce the incentives to invert as well as make it more difficult to accomplish an inversion. Treasury Secretary Jack Lew has been urging Congress to move forward with anti-inversion legislation, which is the only way to fully rein in these transactions.

"These first, targeted steps make substantial progress in constraining the creative techniques used to avoid U.S. taxes, both in terms of meaningfully reducing the economic benefits of inversions after the fact, and when possible, stopping them altogether," Lew said. "While comprehensive business tax reform that includes specific anti-inversion provisions is the best way to address the recent surge of inversions, we cannot wait to address this problem. The Treasury will continue to review a broad range of authorities for further anti-inversion measures as part of our continued work to close loopholes that allow some taxpayers to avoid paying their fair share."

Genuine cross-border mergers make the U.S. economy stronger by enabling U.S. companies to invest overseas and encouraging foreign investment to flow into the U.S. But the Treasury has emphasized that these transactions should be driven by genuine business strategies and economic efficiencies, not just a desire to shift the tax residence of the parent entity to a low-tax jurisdiction and to avoid U.S. taxes.

Specifically, this action eliminates certain techniques inverted companies currently use to gain tax-free access to the deferred earnings of a foreign subsidiary, significantly diminishing the ability of inverted companies to escape U.S. taxation. It also makes it more difficult for U.S. entities to invert by strengthening the requirement that the former owners of the U.S. company own less than 80% of the new combined entity. For some companies considering mergers, the new rules will mean that inversions no longer make economic sense.

The Treasury said it will continue to examine ways to reduce the tax benefits of inversions, including through additional regulatory guidance as well as by reviewing our tax treaties and other international commitments.
