Help the Salem-Morrow Fire Department Protect Your Dreams

The quicker the Salem-Morrow Fire Department's firefighters or EMT's can locate you, the quicker we can begin helping you and your family. In an effort to locate your home or business in an emergency, the Salem-Morrow Fire Department is providing a 6" x 18" reflective sign that will clearly display your street address. These signs are invaluable to firefighters, EMT's, and police officers, who may be looking for your home in your time of need. Similar signs have been installed in other communities with startling results. The Salem-Morrow Fire Department is selling these signs at the low cost of \$12.00 each. If you wish to have the SMFD mount your sign for you, they will do so for \$14.00. Each sign has your street address prominently displayed on both sides in highly reflective 3" numbers against a green background similar to those on an interstate sign. The signs are installed in such a way that assures their visibility, even in high grass and snowy weather conditions. If you would like to purchase one of these signs, simply stop by the Salem-Morrow Fire

Department, 5270 East U. S. Route 22 & State Route 3, Morrow, Ohio 45152, to complete an order form. In approximately 7 days, your sign will be ready for pickup or installation. Generally, the signs can be made, while you wait, in less than 10 minutes. Isn't \$12.00 worth the peace of mind of knowing that help can find you in your time of need?

KNOX-BOX® Rapid Entry System

The KNOX-BOX® Rapid Entry System was specifically developed for the fire department. With one master key, you can gain access to commercial and residential property. More than 7,000 departments nationwide use Knox key boxes, vaults, Haz-Mat cabinets, key switches, locking FDC caps, padlocks and the Knox-Scan heat sensor.

Many of these departments use Sentralok(tm), the master key security system, to control the Knox Master Key®. Property owners in your community store entrance keys, access cards and floor plans in high-security Knox-Boxes mounted near their building entrances.

Commercial Properties

Each KNOX-BOX® purchased by the property owner is keyed to a single master key controlled by your department. With the Knox System, there is no cost to the fire department, no waiting for a property owner to unlock the door in the middle of the night, and no forcing the door open to gain entry. The Knox Rapid Entry System reduces response time, property damage and the liability for lost keys. The Salem-Morrow Fire Department is currently using the Knox System on several properties in the area.

Residential KNOX-BOX® Program

The Salem / Morrow Fire Department has started a Residential Knox Box Program to help us help you. What is Knox Box? It's a heavy duty box that we hang on your door that has your home key in it. We have a Master key that we use to open the box in an emergency situation so we can make access to your home and let use help you.

The reason we started the program is to help us make entry to our citizens without causing damage to their property. We receive calls to residents homes and when we get there we are unable to make access do to the house is locked up tight. We end up breaking into the house to help with their emergency and then they have an extra expense fixing what we had to break. Residents stop by and offer us keys so we do not have to break in. That would be a lot of keys for us to have and maintain. This would cause more of a hindrance then help. This program is for residents that have chronic medical problems, elderly folks that live alone, persons with disabilities that would make it hard for them to let us in, and that live in our protection area. If you are not sure if you qualify, contact Chief LaFollette or Assistant Chief Harrison. This is a free service provided to our residents for as long as they need it.

This program was started by donations to the fire department. We have purchased 6 Knox Boxes and Key Secure Systems. The Key Secure Systems secures the key to the vehicle and tracks who uses it. This gives us an accountability system on the use of the key. Supplies are limited.

"Farmers till the End: Four Centuries of Fort Ancient Life at the Hahn Site near Cincinnati"

Saturday, March 7th, 10:30AM-12:00PM

Mr. Robert Genheimer

George Rieveschl Curator of Archaeology

Cincinnati Museum Center - Cincinnati, Ohio

Sometime in the 13th Century AD, Fort Ancient peoples constructed a large circular village on a high terrace in the lower reaches of the Little Miami River valley. Field investigations at the Hahn Site reveal that a ring or rings of houses surrounded an open communal plaza. These village dwellers grew maize and beans, hunted deer, elk, turkey, and other animals, gathered wild plants, and exploited a variety of river resources including fish and mussels. Archaeological excavations at the site have been aided by a robust remote sensing program that has delineated hundreds of probable pit features and burials. The combination of remote sensing and excavations reveal that through time, the site expanded across the 10-12 acre terrace, and was finally abandoned sometime during the 17th Century AD. Join us in examining seven years' worth of excavations at the site.

Call to Arms for All Boosters

Little Miami School District is one of the fastest-growing areas in southwest Ohio. Our community is primarily rural, covering 98 square miles of mostly farmland. The economic upswing in recent years has brought new development into our area, and we now have our largest enrollment ever.

The education our school district provides continues to be rated excellent by the state of Ohio. We are proud of

this accomplishment and feel this helps make our community attractive for potential homebuyers.

The LMABC currently supports over 850 athletes in grades 7-12. Our plan is simple: to bring our sporting teams up to the level of our education. It is with this spirit that we come to you seeking aid for our student-athletes.

One of the problems our athletes face is an inadequate training facility. Our current weight room is 900 square feet and can't house more than 15 kids at a time. The school board has given the Boosters the opportunity to transform the former Industrial Arts room (3,600 square feet) into a training facility, but the Boosters must pay 100% of the costs. With several initiatives going forward, this state-of-the-art training facility is by far our largest, with an estimated cost of \$175,000. We are now beginning a fund drive to accomplish this goal.

There is opportunity in the corporate world for us to raise money. There are a few organizations who might match funds with us for the advancement of sports. The Cincinnati Bengals, for example, recently announced a matching grant for \$150,000 to Harrison High School for the installation of a new turf field. The Bengals have done this for numerous schools, but seemingly always for the installation of a turf field, and always in a matching-grant scenario. We have feelers out with them as well as many other corporations in the Cincinnati area. We are trying to reach out to any businesses that can help us advance our athletic facilities.

These opportunities are exciting and yet unsure. The bottom line is that we have to have a plan in place to assure that this training center comes to fruition. That is where we must begin: with you! We need our alumni base, parents of student-athletes, parents of non-student athletes, parents of past student-athletes, local businesses, and companies you work for or with. In other words, we need to pull from every aspect of our lives.

The average citizen, who does not have a student-athlete or care much for sports, may ask how athletics would affect his/her life. A National Center for Education Statistics study shows that children who participate in extracurricular activities will have a higher GPA, have a higher percentage of post-secondary education, have a healthier lifestyle (by percentage of non-smokers and non-binge drinkers), earn a higher average income, and tend to stay in (or return to) the school district they grew up in. This makes our school district more desirable to live in, and thus raises our property values and provides us with a greater customer base for our local businesses. We truly are all in this together.

It would be easy to say that if everyone in the school district would donate \$100 then we would probably exceed our goals. Honestly, the reach is not far from that. If our local businesses could partner with us in exchange for advertising, we would encourage everyone to give those businesses a better consideration.

If the loss of one outstanding young man this year taught us anything, it's that we are truly a community that cares. It is with that sense of closeness that I ask you kindly to support the initiative before us. Let us build something we all can be proud of.

BIT Academy Launched at South Campus in Kings Mills

Business and Information Technology Adult Education programs have been based at the WCCC South Campus in Kings Mills for several years. To increase awareness of the excellent services offered there, it has been rebranded and launched as the BIT Academy. Along with a new name and logo, new programming in the area of IT will be announced, including courses on computer security. The Academy will hold an Open House on March 4 from 4-7 p.m. Read the [Spotlight on Success](#) below for one student's recommendation of the IT programs. Career-Tech Student Organizations Develop Skilled Leaders

Students in our Career-Technical Student Organizations, which are Business Professionals of America, SkillsUSA, Family, Career and Community Leaders of America, FFA, DECA and Future Educators Association, are busy this spring with skills competitions and leadership opportunities on the local, regional, state and national level. WCCC hosted the BPA Region 17 competitions recently, and coming up Feb. 10 is the Local SkillsUSA competition here at WCCC. CTSOs provide valuable learning experiences for our students, and broaden their horizons as they plan for their futures.

There is still time to apply for high school programs for 2015-16

Sophomores interested in two-year programs and juniors interested in senior-only programs can still apply for the 2015-16 school year. It is easy to do! Just go online [HERE](#), create an account and start the application process.

Early Placement for Seniors Starts Now

Many of our seniors are being placed in jobs now for the second semester. The students report to WCCC for academic classes, and then go to work, in a paid position, instead of their program lab. Spotlight on Success: IT Student Finds a World of Opportunity

The WCCC CCNA program has blown my career doors off! I started this program as laid-off and unemployed from IT sales. I found a job after my first earned certifications from WCCC as an entry level desktop support technician with Atos, to interviewing as a network administrator paying \$80,000+ with my CCNA certification.

Compared to the costs of this program versus a technical college that does not offer certifications, it's an easy choice. Your return on investment for a year of your time and roughly \$11,000 is incomparable. Do you want to spend 4 times the amount for a \$50,000 job from a technical college or get college credit and end up with a high-paying job? The numbers speak for themselves. Two months from now I will be working somewhere making a lot of money and taking additional steps toward other certifications for my own designed career path.

A person could go from pushing a broom for a living to one of the most in-demand jobs in the world, not just the U.S.A., THE WORLD! If you have the flexibility (like me) the world is wide open to you!

Little Miami State Park Usage Soars!

By Paul Morgan

Total visits to the Little Miami State Park in 2014 were 760,000! This figure is from our first-ever comprehensive count of trail visits. The last estimate, 200,000, done by OKI in 1998, was based on very limited manual count data and a shorter trail length.

The 2014 estimate was calculated using electronic counters operating 24/7 for at least one month on each of the 22 "counting" sections of our 50-mile trail. The monthly counts were extrapolated to annual visits using data from the National Bike & Pedestrian Documentation project and with support from the Rails to Trails Conservancy.

FLMSP will use the new estimate to encourage grantors and other organizations to invest more money into the maintenance of this trail. We'll help them understand what we trail users already know-that our trail is cherished by the individual users and by the communities the trail passes through, and is a valuable asset to our entire region.

Our counting program will continue for the foreseeable future. If you'd like to help, contact us through our website.

Trailside Historical Marker Approved

By Janet Slater

Hamilton Township's first historical marker, explaining the contribution of the Butterworth family to the Little Miami Railroad, the Underground Railroad, and Maineville Academy, will be placed along our trail at Butterworth Station, 2.6 miles north of Loveland. It will mark the location of the stone depot, no longer standing but pictured above.

The boy in the old photo is Thomas Foster, a Butterworth descendent. Although Thomas is deceased, his wife Avery lives in Mason and supplied the photo. The depot is round because it doubled as a water tower for the railroad, using water from nearby springs, as well as a place to await the train.

The engraved sign with a picture and the state-required dedication ceremony require about \$3,000 in funding, and the local group who worked for the historical marker needs your help. The caretaker of Butterworth Farm, located just east of the approved marker, is offering a special tour of the stone house where slaves were hidden in the 1830s and 40s to all who contribute \$100 or more toward the project.

To contribute, please send a check made out to the Warren County Foundation, designated for Butterworth Station, to: Warren County Foundation, 118 Main St., Lebanon, OH 45036.

A public dedication ceremony for the marker is planned for **June 6, 2015**.

United Way of Warren County Hosts Warren County School Readiness Summit

United Way of Warren County hosted the first ever Warren County School Readiness Summit on Friday, January 23, 2015. This event was co-sponsored by 4C...for Children and was held at the Golf Center at Kings Island in Mason. In 2014, United Way of Warren County made a strategic organizational decision to get involved in Kindergarten Readiness. Throughout the year, numerous meetings were held with educators and key organizations to identify the best way to get involved. As expected, it was clear that Warren County has excellent school districts and private preschools and that quality early childhood education leads to school and

life success. The meetings also revealed a need for county-wide coordination and communication between school districts, private preschools and parents because too many children aren't starting school ready to learn. The first goals of United Way of Warren County's Kindergarten Readiness initiative are to build collaborative partnerships and build awareness.

Aaron Reid, President & CEO, United Way of Warren County said, "The School Readiness Summit is the first step in building awareness. We are excited to partner with our school districts to address some challenges we face with Kindergarten Readiness in Warren County."

The keynote speaker for the Summit was Senator Peggy Lehner, chair of the Ohio Senate Education Committee. Eight of the ten county school superintendents were also in attendance with over 150 people representing a diverse group of educators, political leadership, nonprofit organizations, community leaders and the business community.

United Way of Warren County is a local, independent nonprofit serving all of Warren County. Incumbent Training for Advanced Manufacturing Now Available

In response to workforce needs being expressed by the private sector, our office created WIIN; a program that bundles like-minded training needs within Warren County businesses. Once bundled, WIIN interfaces with area educational partners to secure the best curriculum and rate to meet training needs.

WIIN's first training offering involves businesses in the manufacturing space, and classes are currently underway. Enrollment is on-going and once the appropriate number of employees are gathered, training modules can begin.

Flexible Training

The training program will cover 16 needed skills that have been expressed by the private sector. These skills cover a broad range of electric and mechanical needs from programming to blueprint reading.

To allow maximum flexibility, each skill is taught in a separate module, and can be taken individually or in combination with other training. For specific details of each module, and to participate, please [e-mail](#) Matt Schnipke.

Partnering Organizations

This effort would not be possible without collaboration from multiple sources including the Warren County Small Business Development Alliance, the Warren County Chamber Alliance, and the Warren County Port Authority. With the help of these participating organizations, WIIN hopes to deliver a quality training opportunity at a reduced cost to employers.

News You Can Use

How Are You Going To File Your Taxes?

Some tips are worth repeating...a reminder each year.

If you were legally married on 12/31/14, the IRS considers you married for the entire year of 2014.

You now must decide if you are going to file as Married Filing Jointly (MFJ) or Married Filing Separately (MFS). Note, however, if you file MFJ it is an irrevocable election---you cannot go back and amend a MFJ return to a MFS return.

The primary reason to file MFS is to pay less tax. It is a particularly beneficial filing status to save on the amount of Ohio taxes paid. Another reason to file separately is to avoid joint liability. Each spouse who signs a joint return is responsible for the accuracy and tax liability on the return.

Many times, for example, in a second marriage situation we see couples who have a desire to maintain separate financial responsibilities. While this is understandable, it could lead to paying several thousand dollars in additional taxes. If you file MFS, you will lose the following:

- Credits for child care, education credits, adoption credits and EIC
- Student loan interest deduction, tuition and fees deduction, savings bond interest deduction
- If one spouse itemizes, or takes the standard deduction, the other spouse must do the same. (That is, one cannot itemize and the other take the standard deduction.)
- A greater percentage of your Social Security benefits may be taxable
- Your ability to contribute to traditional or Roth IRA will be greatly limited
- Capital losses will be limited to a maximum of \$1,500
- Passive losses will be limited

Before filing your return you need to look at both MFJ and MFS to see which lowers your tax burden the greatest.

Which President Was Driven to Congress in Al Capone's Armored Limousine?

Answer: Franklin Roosevelt! The Secret Service needed a car to drive President Roosevelt to Congress to make his speech on Pearl Harbor the day after the attack. The Treasury Department had impounded Al Capone's armored car years earlier, so they decided that was the safest transportation. To celebrate President's Day (February 16) and George Washington's birthday (February 22) we've put together a list of resources, activities, and lesson plans. We hope your students enjoy learning more about our country's leaders.
