## **Help the Salem-Morrow Fire Department Protect Your Dreams**

The quicker the Salem-Morrow Fire Department's firefighters or EMT's can locate you, the quicker we can begin helping you and your family. In an effort to locate your home or business in an emergency, the Salem-Morrow Fire Department is providing a 6" x 18" reflective sign that will clearly display your street address. These signs are invaluable to firefighters, EMT's, and police officers, who may be looking for your home in your time of need. Similar signs have been installed in other communities with startling results. The Salem-Morrow Fire Department is selling these signs at the low cost of \$12.00 each. If you wish to have the SMFD mount your sign for you, they will do so for \$14.00. Each sign has your street address prominently displayed on both sides in highly reflective 3" numbers against a green background similar to those on an interstate sign. The signs are installed in such a way that assures their visibility, even in high grass and snowy weather conditions. If you would like to purchase one of these signs, simply stop by the Salem-Morrow Fire Department, 5270 East U. S. Route 22 & State Route 3, Morrow, Ohio 45152, to complete an order form. In approximately 7 days, your sign will be ready for pickup or installation. Generally, the signs can be made, while you wait, in less than 10 minutes. Isn't \$12.00 worth the peace of mind of knowing that help can find you in your time of need?

## **Salem/Morrow Fire Department Cadet Program**

## **KNOX-BOX® Rapid Entry System**

The KNOX-BOX® Rapid Entry System was specifically developed for the fire department. With one master key, you can gain access to commercial and residential property. More than 7,000 departments nationwide use Knox key boxes, vaults, Haz-Mat cabinets, key switches, locking FDC caps, padlocks and the Knox-Scan heat sensor.

Many of these departments use Sentralok(tm), the master key security system, to control the Knox Master Key®. Property owners in your community store entrance keys, access cards and floor plans in high-security Knox-Boxes mounted near their building entrances.

## Commercial Properties

Each KNOX-BOX® purchased by the property owner is keyed to a single master key controlled by your department. With the Knox System, there is no cost to the fire department, no waiting for a property owner to unlock the door in the middle of the night, and no forcing the door open to gain entry. The Knox Rapid Entry System reduces response time, property damage and the liability for lost keys. The Salem-Morrow Fire Department is currently using the Knox System on several properties in the area.

## Residential KNOX-BOX® Program

The Salem / Morrow Fire Department has started a Residential Knox Box Program to help us help you. What is Knox Box? It's a heavy duty box that we hang on your door that has your home key in it. We have a Master key that we use to open the box in an emergency situation so we can make access to your home and let us help you.

The reason we started the program is to help us make entry to our citizens without causing damage to their property. We receive calls to residents homes and when we get there we are unable to make access do to the house is locked up tight. We end up breaking into the house to help with their emergency and then they have an extra expense fixing what we had to break. Residents stop by and offer us keys so we do not have to break in. That would be a lot of keys for us to have and maintain. This would cause more of a hindrance than help. This program is for residents that have chronic medical problems, elderly folks that live alone, persons with disabilities that would make it hard for them to let us in, and that live in our protection area. If you are not sure if you qualify, contact Chief LaFollette or Assistant Chief Harrison. This is a free service provided to our residents for as long as they need it.

This program was started by donations to the fire department. We have purchased 6 Knox Boxes and Key Secure Systems. The Key Secure Systems secures the key to the vehicle and tracks who uses it. This gives us an accountability system on the use of the key. Supplies are limited.

The museum and grounds will be open from 10AM to 5PM on Saturday and 12 Noon to 5 PM on Sunday. General Admission (excluding the free lecture) is \$6.00 for adults, \$5.00 for students. #### ***"Farmers till the End: Four Centuries of Fort Ancient Life at the Hahn Site near Cincinnati"***

**Saturday, March 7<sup>th</sup>, 10:30AM-12:00PM**

Mr. Robert Genheimer

George Rieveschl Curator of Archaeology

Cincinnati Museum Center - Cincinnati, Ohio

Sometime in the 13<sup>th</sup> Century AD, Fort Ancient peoples constructed a large circular village on a high terrace in the lower reaches of the Little Miami River valley. Field investigations at the Hahn Site reveal that a ring or rings of houses surrounded an open communal plaza. These village dwellers grew maize and beans, hunted deer, elk, turkey, and other animals, gathered wild plants, and exploited a variety of river resources including fish and mussels. Archaeological excavations at the site have been aided by a robust remote sensing program that has delineated hundreds of probable pit features and burials. The combination of remote sensing and excavations reveal that through time, the site expanded across the 10-12 acre terrace, and was finally abandoned sometime during the 17<sup>th</sup> Century AD. Join us in examining seven years' worth of excavations at the site.

### Call to Arms for All Boosters

Little Miami School District is one of the fastest-growing areas in southwest Ohio. Our community is primarily rural, covering 98 square miles of mostly farmland. The economic upswing in recent years has brought new development into our area, and we now have our largest enrollment ever.

The education our school district provides continues to be rated excellent by the state of Ohio. We are proud of this accomplishment and feel this helps make our community attractive for potential homebuyers.

The LMABC currently supports over 850 athletes in grades 7-12. Our plan is simple: to bring our sporting teams up to the level of our education. It is with this spirit that we come to you seeking aid for our student-athletes.

One of the problems our athletes face is an inadequate training facility. Our current weight room is 900 square feet and can't house more than 15 kids at a time. The school board has given the Boosters the opportunity to transform the former Industrial Arts room (3,600 square feet) into a training facility, but the Boosters must pay 100% of the costs. With several initiatives going forward, this state-of-the-art training facility is by far our largest, with an estimated cost of \$175,000. We are now beginning a fund drive to accomplish this goal.

There is opportunity in the corporate world for us to raise money. There are a few organizations who might

match funds with us for the advancement of sports. The Cincinnati Bengals, for example, recently announced a matching grant for \$150,000 to Harrison High School for the installation of a new turf field. The Bengals have done this for numerous schools, but seemingly always for the installation of a turf field, and always in a matching-grant scenario. We have feelers out with them as well as many other corporations in the Cincinnati area. We are trying to reach out to any businesses that can help us advance our athletic facilities.

These opportunities are exciting and yet unsure. The bottom line is that we have to have a plan in place to assure that this training center comes to fruition. That is where we must begin: with you! We need our alumni base, parents of student-athletes, parents of non-student athletes, parents of past student-athletes, local businesses, and companies you work for or with. In other words, we need to pull from every aspect of our lives.

The average citizen, who does not have a student-athlete or care much for sports, may ask how athletics would affect his/her life. A National Center for Education Statistics study shows that children who participate in extracurricular activities will have a higher GPA, have a higher percentage of post-secondary education, have a healthier lifestyle (by percentage of non-smokers and non-binge drinkers), earn a higher average income, and tend to stay in (or return to) the school district they grew up in. This makes our school district more desirable to live in, and thus raises our property values and provides us with a greater customer base for our local businesses. We truly are all in this together.

It would be easy to say that if everyone in the school district would donate \$100 then we would probably exceed our goals. Honestly, the reach is not far from that. If our local businesses could partner with us in exchange for advertising, we would encourage everyone to give those businesses a better consideration.

If the loss of one outstanding young man this year taught us anything, it's that we are truly a community that cares. It is with that sense of closeness that I ask you kindly to support the initiative before us. Let us build something we all can be proud of.

The Green & Gold Committee is the point of contact for this fund drive. You may call 513.476.8610 or email us at [lmgreenandgold@gmail.com](mailto:lmgreenandgold@gmail.com). A member of our team will contact you.

### **Little Miami State Park Usage Soars!**

By Paul Morgan

Total visits to the Little Miami State Park in 2014 were 760,000! This figure is from our first-ever comprehensive count of trail visits. The last estimate, 200,000, done by OKI in 1998, was based on very limited manual count data and a shorter trail length.

The 2014 estimate was calculated using electronic counters operating 24/7 for at least one month on each of the 22 "counting" sections of our 50-mile trail. The monthly counts were extrapolated to annual visits using data from the National Bike & Pedestrian Documentation project and with support from the Rails to Trails Conservancy.

FLMSP will use the new estimate to encourage grantors and other organizations to invest more money into the maintenance of this trail. We'll help them understand what we trail users already know—that our trail is cherished by the individual users and by the communities the trail passes through, and is a valuable asset to our entire region.

Our counting program will continue for the foreseeable future. If you'd like to help, contact us through our website.

## **Trailside Historical Marker Approved**

By Janet Slater

Hamilton Township's first historical marker, explaining the contribution of the Butterworth family to the Little Miami Railroad, the Underground Railroad, and Maineville Academy, will be placed along our trail at Butterworth Station, 2.6 miles north of Loveland. It will mark the location of the stone depot, no longer standing but pictured above.

The boy in the old photo is Thomas Foster, a Butterworth descendent. Although Thomas is deceased, his wife Avery lives in Mason and supplied the photo. The depot is round because it doubled as a water tower for the railroad, using water from nearby springs, as well as a place to await the train.

The engraved sign with a picture and the state-required dedication ceremony require about \$3,000 in funding, and the local group who worked for the historical marker needs your help. The caretaker of Butterworth Farm, located just east of the approved marker, is offering a special tour of the stone house where slaves were hidden in the 1830s and 40s to all who contribute \$100 or more toward the project.

To contribute, please send a check made out to the Warren County Foundation, designated for Butterworth Station, to: Warren County Foundation, 118 Main St., Lebanon, OH 45036. A public dedication ceremony for the marker is planned for **June 6, 2015**.

## **Incumbent Training for Advanced Manufacturing Now Available**

In response to workforce needs being expressed by the private sector, our office created WIIN; a program that bundles like-minded training needs within Warren County businesses. Once bundled, WIIN interfaces with area educational partners to secure the best curriculum and rate to meet training needs.

WIIN's first training offering involves businesses in the manufacturing space, and classes are currently underway. Enrollment is on-going and once the appropriate number of employees are gathered, training modules can begin.

### Flexible Training

The training program will cover 16 needed skills that have been expressed by the private sector. These skills cover a broad range of electric and mechanical needs from programming to blueprint reading.

To allow maximum flexibility, each skill is taught in a separate module, and can be taken individually or in combination with other training. For specific details of each module, and to participate, please [e-mail](mailto:Matt.Schnipke@warrencountyohio.gov) Matt Schnipke.

### Partnering Organizations

This effort would not be possible without collaboration from multiple sources including the Warren County Small Business Development Alliance, the Warren County Chamber Alliance, and the Warren County Port Authority. With the help of these participating organizations, WIIN hopes to deliver a quality training opportunity at a reduced cost to employers.

## News You Can Use

### **Ohio Logged Record New Business Filings in 2014**

A recent article from the Ohio Society of CPAs...

For the fifth year running, the Buckeye State has seen a record number of new entities filing to do business in the state, according to Ohio Secretary of State Jon Husted.

Last year, 93,775 new businesses filed with the Secretary of State. These numbers surpassed 2013 figures, in which 89,735 filed.

"Ohio continues to be a place where companies want to be located because we are focused on providing quality customer service that understands the needs of business," Husted said. "By working to roll out the red carpet and cut the red tape, we are helping improve the state's business climate, and that means a stronger economy and more jobs."

As part of the overall record number of filings for last year, December 2014 saw 7,441 new entities file to do business, which surpassed the 6,941 filings from December 2013.

The steady growth among new businesses is a boom to the economy and for Ohio families.

"As more companies start up, they increase the potential for more, good-paying jobs," Husted said. "That means families all across the state will not only be able to put a roof over their head, clothes on their back and food on the table, but also have a sense of accomplishment and dignity that they are moving forward."

A major step in strengthening Ohio's business climate was approving meaningful municipal income tax reform, an issue OSCPA has long advocated for on behalf of our members.
