## **KNOX-BOX® Rapid Entry System**

The KNOX-BOX® Rapid Entry System was specifically developed for the fire department. With one master key, you can gain access to commercial and residential property. More than 7,000 departments nationwide use Knox key boxes, vaults, Haz-Mat cabinets, key switches, locking FDC caps, padlocks and the Knox-Scan heat sensor.

Many of these departments use Sentralok(tm), the master key security system, to control the Knox Master Key®. Property owners in your community store entrance keys, access cards and floor plans in high-security Knox-Boxes mounted near their building entrances.

Commercial Properties: Each KNOX-BOX® purchased by the property owner is keyed to a single master key controlled by your department. With the Knox System, there is no cost to the fire department, no waiting for a property owner to unlock the door in the middle of the night, and no forcing the door open to gain entry. The Knox Rapid Entry System reduces response time, property damage and the liability for lost keys. The Salem-Morrow Fire Department is currently using the Knox System on several properties in the area.

Residential KNOX-BOX® Program: The Salem/Morrow Fire Department has started a Residential Knox Box Program to help us help you. What is Knox Box? It's a heavy duty box that we hang on your door that has your home key in it. We have a Master key that we use to open the box in an emergency situation so we can make access to your home and let us help you.

The reason we started the program is to help us make entry to our citizens without causing damage to their property. We receive calls to residents homes and when we get there we are unable to make access do to the house is locked up tight. We end up breaking into the house to help with their emergency and then they have an extra expense fixing what we had to break. Residents stop by and offer us keys so we do not have to break in. That would be a lot of keys for us to have and maintain. This would cause more of a hindrance then help. This program is for residents that have chronic medical problems, elderly folks that live alone, persons with disabilities that would make it hard for them to let us in, and that live in our protection area. If you are not sure if you qualify, contact Chief Harrison. This is a free service provided to our residents for as long as they need it.

This program was started by donations to the fire department. We have purchased 6 Knox Boxes and Key Secure Systems. The Key Secure Systems secures the key to the vehicle and tracks who uses it. This gives us an accountability system on the use of the key. Supplies are limited.

### **Help the Salem-Morrow Fire Department Protect Your Dreams**

The quicker the Salem-Morrow Fire Department's firefighters or EMT's can locate you, the quicker we can begin helping you and your family. In an effort to locate your home or business in an emergency, the Salem-Morrow Fire Department is providing a 6" x 18" reflective sign that will clearly display your street address. These signs are invaluable to firefighters, EMT's, and police officers, who may be looking for your home in your time of need. Similar signs have been installed in other communities with startling results. The Salem-Morrow Fire Department is selling these signs at the low cost of \$12.00 each. If you wish to have the SMFD mount your sign for you, they will do so for \$14.00. Each sign has your street address prominently displayed on both sides in highly reflective 3" numbers against a green background similar to those on an interstate sign. The signs are installed in such a way that assures their visibility, even in high grass and snowy weather. If you would like to purchase one of these signs, simply stop by the Salem-Morrow Fire Department, 5270 East U. S. Route 22 & State Route 3, Morrow, Ohio 45152, to complete an order form. In approximately 7 days, your sign will be ready for pickup or installation. Generally, the signs can be made, while you wait, in less than 10 minutes. Isn't \$12.00 worth the peace of mind of knowing that help can find you in your time of need?

### **Free Blood Pressure Checks at the Salem-Morrow Fire Department**

## Morrow Area Historical Society News

### **Update from the Morrow Area Historical Society Executive Board**

The Morrow Area Historical Society Executive Board has been meeting over the last 2 years to lay the foundation for developing a society that will collect and share our local history. We have developed our Constitution and Bylaws, published quarterly newsletters, placed digital picture frames around Morrow highlighting historic photos of the area, started a speakers program and had a booth at Christmas on Main to meet our neighbors.

We are now ready, and need, members of the community to help us in our mission. First, if you're not a member, we would love for you to join! With your membership you will receive our quarterly newsletter. It will also provide us with critical funds that we will use to develop programs that benefit the community. But maybe most importantly, it will show us that you are interested in and care about preserving and sharing our local history.

In addition to membership, we would also love to have many members of the community volunteer to help with our various projects. The opportunities range from being on a Finance Committee to develop a capital campaign that would secure a location for a museum, to writing articles for the newsletter, to planning social events for the members. We would also love to start an oral history project to collect memories and stories from the community and a project to photograph and document historic structures around the area while they still exist. If you have an idea for a project we would love to hear it!

As you can see we have many exciting avenues to explore and would love to have you join us. Please consider being a member and volunteering. Our membership brochure is below or you can call 513.899.2821. We want Morrow area history to be alive!

## **Little Miami Local School District News**

### **Board Votes to Seek Levy Renewal**

The Little Miami Local Schools Board of Education voted July 21 to place a levy renewal request on the November ballot.

The Board will ask voters to renew the issue that passed in November 2011 and that will expire next year. The new request will be for a 13.86-mill, five-year emergency operating levy, which would generate \$10.6 million in operating dollars annually.

Little Miami Treasurer Terry Gonda said that while he knew levy requests were never welcome, he was pleased the district was not asking for new monies.

“With the 2011 issue getting ready to expire, the Board took a hard look at the most responsible way to move forward,” he said. “In seeking this renewal, the district will be able to continue to rebuild after fiscal emergency, without needing to ask our community to support a tax increase.” Gonda said that while the millage of this request is slightly lower, the amount it generates is the same as the 2011 levy, qualifying it as a renewal.

After eight previous ballot requests, voters approved a 13.95-mill, five-year property tax levy in November 2011. Prior to that, Little Miami had been proclaimed by the state to be in fiscal emergency in July 2010 and had been required to seek \$11 million in state solvency assistance loans to continue to operate. Following the 2011 approval, the district was able to begin restoring services after two buildings had been closed and significant cuts had occurred in staff and services. The district also began repaying the loans within the required two-year time frame.

"We have operated very leanly while meeting our financial obligations to the state and to our community," Gonda said. "This renewal will allow us to continue these operations while preparing for our largest enrollment ever this fall."

Board President Randy Haas said board members are cognizant of their responsibility to the community, and this prompted long discussions about this levy request. The board also sought the input of the independent Business Advisory Council, which recommended this renewal request.

"As a Board, we are committed to being good stewards of taxpayer dollars," Haas said. "Since the 2011 levy and even after the state commission left, we have scrutinized each financial decision closely. We feel that this renewal request is a fair deal for the district and for our community."

### **Business Advisory Council seeks New Members**

The Little Miami Business Advisory Council is currently seeking new volunteers to serve on the council. The BAC acts in an advisory capacity to the Little Miami Schools Board of Education and is independent of the school district. The BAC reviews district expenditures, assesses the efficiency of district operations, reviews revenue generating opportunities and makes recommendations to the Board. The council is typically comprised of 12 members, with nine of those members being volunteers from the community. Council members will serve three-year terms, which may be renewed for additional terms at the discretion of the council. Learn more about the Business Advisory Council [here](#). ## **What Can Businesses Learn From Katrina?**

When Hurricane Katrina hit New Orleans ten years ago this week, it devastated the local business community as well as individual citizens. According to a [report by ABC News](#), insured losses alone totaled \$40 billion. That's a sobering statistic given the inevitability of disasters and emergencies. It can be especially daunting when you think about the whole range of potential events. Natural disasters, technological failures, pandemic—the list goes on. The good news is that you can take steps now to prepare for disasters, mitigate potential damage and plan for how your business will recover. [Hurricane season](#) is already underway in the Atlantic and Pacific, and September starts [National Preparedness Month](#) with this year's theme of "*Don't Wait. Communicate. Make Your Emergency Plan Today*," so read on for tips, resources and training to help make sure your business is prepared and can recover when disaster strikes.

## What Did We Learn?

Hurricane Katrina left disaster and loss in its wake. But it also left behind countless lessons about how businesses can better prepare for and respond to devastating storms. [Read this official White House "lessons learned" report](#) to be better prepared. In the event of an emergency, you and your employees can't be expected to take steps to protect the business unless you are safe and you know your families are, too. To that end, be sure to prepare your home and family for an emergency, and encourage your employees to do the same. For more information, check out [Are You Ready? An In-depth Guide to Citizen Preparedness](#), available from the Federal Emergency Management Agency (FEMA). This book can be used either as a reference or as a step-by-step manual. [Ready.gov](#) also provides a wealth of preparedness information. To learn more, read the GPO Government Book Blog's fascinating article "[Hurricane Katrina, 10 Years Later](#)" about some of the terrific [Natural and Environmental Disaster books](#) from the Federal Government with findings and lessons learned after Hurricanes Katrina and Sandy.

## Can Your Vendors Continue to Supply You?

Roughly 40 to 60 percent of businesses never recover from a crippling disaster, according to the SBA. That means you don't just need to think about the continuity of your own business, but also that of your suppliers. Check out the [SBA's PrepareMyBusiness.org](#) site for information about everything from assessing how vulnerable your supply chain is to determining your most critical business functions. FEMA also publishes extensive tips and disaster preparedness resources for businesses via [Ready.gov/Business](#).

## What Are Other Businesses Doing?

Wondering how well prepared your business is compared with your competitors and colleagues? This fascinating [FEMA report on the state of disaster preparedness among businesses](#) holds many invaluable insights and recommendations. For one, the report finds that businesses tend to focus on data storage and internet security over continuity of business operations. That's not enough, according to the report. Organizations also have to consider the human side of how the business would keep running. Plans are also only valuable if they are clearly communicated to employees!

## Storm Lessons for Builders

Are you in the construction or real estate industry or own a business or home in an area prone to natural disasters? The following two excellent FEMA publications cover best practices for constructing and rebuilding homes and businesses in high-risk disaster areas. This book on [renovating substantially damaged homes](#) provides information about restoring and selling homes that have been damaged, from assessing the cost of repairs to acquiring necessary permits. Because coastal regions can be especially vulnerable to natural

disasters, be sure to also check out FEMA's series of fact sheets on technical guidance regarding the [construction and renovation of coastal buildings](#).

For more information on how businesses can mitigate the threat of disaster, check out the [BusinessUSA Disaster Preparedness Tool](#), which highlights additional resources to help with disaster preparedness and recovery.

#### Active Shooter Training for Businesses

Could a disgruntled current or former employee someday decide to exact revenge on you or your employees? Workplace shootings—a different kind of disaster for businesses—are no longer out of the realm of possibility. Moreover, they are by nature unpredictable and confusing events—not to mention frightening and dangerous. Apart from workplace and building security measures you may already have in place, make sure you and your employees know how to react should such a crisis arise. #### **Filing for Tax-Exempt Status Now Much Easier**

IRS now offers Form 1023-EZ

For decades, the IRS used the same application, Form 1023, for all nonprofits seeking Section 501 (c)(3) tax-exempt status. Although, the IRS had a lower application fee (\$400 instead of \$800) for small nonprofits with annual gross income of less than \$10,000, there wasn't a simpler application process for the small organizations. Form 1023 is a complex, 26-page form to submit that takes many hours to fully complete. This also led to a backlog of over a year for the IRS to approve the applications.

In July, 2014 the IRS introduced [Form 1023-EZ](#). This is a simple 2 ½ page form that the IRS estimates about 70% of all applicants will be eligible to submit. To be eligible to use this application process, the organization must project to have less than \$50,000 in gross revenues and assets of less than \$250,000. There is also about 20 additional types of organizations ineligible to use the EZ form. This would include LLCs, churches, schools, colleges, hospitals and HMOs to name a few.

Since introducing Form 1023-EZ, the IRS reported they had closed 117,000 exemption applications in 2014, a 121% increase from the prior year. In addition, the approval process is now being completed in as few as ten days.

The form, however, has many critics. Information such as financial statements and Articles of Incorporation are not required with the 1023-EZ. The concern is that unqualified or poorly organized organizations may be granted tax-exempt status. To answer the critics, the IRS has announced they will conduct examination audits of the organization one year after the 501(c)(3) status is granted.

In 1971, Congress passed a resolution making August 26, Women's Equality Day, to celebrate the passage of the 19th Amendment in 1920 giving women the right to vote. Many people take the Labor Day weekend as an opportunity to get together with others, and some families make it their last summer trip with the kids since they have the day off from school. But as a teacher, you know that this federal holiday is celebrated on the first Monday in September to pay tribute to the social and economic achievements of American workers. Use our [new lesson plan](#) to teach your students about the observance's history, and the topic as an opportunity to pick their brains about what jobs and careers they might want to do in the future.
