Warren County Regional Planning Commission to Receive "Sustainable Community of the Year" award

Community leaders to be honored with Partner of the Year Awards

Award to be presented at Partners for the Environment Annual Dinner

Glen Helen Nature Preserve and Tecumseh Land Trust will be honored Wednesday as the Partner Organization of the Year at the Partners for the Environment Annual Dinner at the Aullwood Audubon Center and Farm.

The Partner of the Year Awards celebrate organizations and people that work to protect, preserve, and restore the environmental and agricultural resources of the Great Miami River and Little Miami River watersheds.

Several awards will be presented during the dinner in addition to the Partner Organization of the Year.

- Warren County Regional Planning Commission will be honored with the first Sustainable Community of the Year award.

- William “Bill” Schieman, a volunteer with Little Miami River Watershed Network.
- Irv Bieser, a lifelong environmental advocate, will be honored with the Lifetime Achievement award.

The Glen Helen and Tecumseh Land Trust are being honored with the Partner of the Year award for their partnership to ensure the wooded glen near Yellow Springs will be forever preserved and open to the public.

"Glen Helen Nature Preserve and Tecumseh Land Trust are thrilled to be selected as Partner of the Year for our partnership and effort to preserve these beautiful lands," says Krista Magaw, land trust executive director. "There is no greater treasure here than Glen Helen. It is the center of our ecology and our quality of life. It's an honor to do our part to protect it."

The Warren County Planning Commission has made strides in protecting the land and water in the county while encouraging economic growth. A newly updated zoning code encourages growth while taking steps to preserve natural resources and create livable, walkable communities.

Schieman guided the development of the Little Miami River Kleeners and the Little Miami River Watershed Network. He was chosen for the award because of his outstanding volunteer service to protect and preserve the cultural, environmental and natural resources in Bellbrook and Sugarcreek Township as well as Greene, Clinton, Montgomery and Warren counties in the Little Miami River Watershed. Schieman is chairperson of the Sugarcreek Township Zoning Commission and an Ohio Certified Volunteer Naturalist.

Bieser has worked tirelessly on conservation and environmental issues for many years. Since 1998, he has served as a Park Commissioner of the Five Rivers Metroparks. His leadership on the Upper River Fund has helped protect thousands of acres along the Little Miami River. He was instrumental in starting the Greater Dayton Conservation Fund, which has funded dozens of projects across the Miami Valley. His leadership helped create the Partners for the Environment. He also served as a trustee of the Ohio chapter of The Nature Conservancy.

"The awards dinner is an opportunity to honor those who have done exceptional work and have provided us with inspiration and leadership," says Sarah Hippensteel Hall, co-chair of Partners for the Environment.

The dinner will be held from 6 to 8 p.m.

The Partners for the Environment is an alliance of environmental organizations, government and civic organizations, and public and private educational institutions within an 18-county region in southwest Ohio. More than 70 organizations are connected to the alliance.

Help the Salem-Morrow Fire Department Protect Your Dreams

The quicker the Salem-Morrow Fire Department's firefighters or EMT's can locate you, the quicker we can begin helping you and your family. In an effort to locate your home or business in an emergency, the Salem-Morrow Fire Department is providing a 6" x 18" reflective sign that will clearly display your street address. These signs are invaluable to firefighters, EMT's, and police officers, who may be looking for your home in your time of need. Similar signs have been installed in other communities with startling results. The Salem-Morrow Fire Department is selling these signs at the low cost of \$12.00 each. If you wish to have the SMFD mount your sign for you, they will do so for \$14.00. Each sign has your street address prominently displayed on both sides in highly reflective 3" numbers against a green background similar to those on an interstate sign. The signs are installed in such a way that assures their visibility, even in high grass and snowy weather. If you would like to purchase one of these signs, simply stop by the Salem-Morrow Fire Department, 5270 East U. S. Route 22 & State Route 3, Morrow, Ohio 45152, to complete an order form. In approximately 7 days, your sign will be ready for pickup or installation. Generally, the signs can be made, while you wait, in less than 10 minutes. Isn't \$12.00 worth the peace of mind of knowing that help can find you in your time of need?

KNOX-BOX® Rapid Entry System

The KNOX-BOX® Rapid Entry System was specifically developed for the fire department. With one master key, you can gain access to commercial and residential property. More than 7,000 departments nationwide use Knox key boxes, vaults, Haz-Mat cabinets, key switches, locking FDC caps, padlocks and the Knox-Scan heat sensor.

Many of these departments use Sentralok(tm), the master key security system, to control the Knox Master Key®. Property owners in your community store entrance keys, access cards and floor plans in high-security Knox-Boxes mounted near their building entrances.

Commercial Properties: Each KNOX-BOX® purchased by the property owner is keyed to a single master key controlled by your department. With the Knox System, there is no cost to the fire department, no waiting for a property owner to unlock the door in the middle of the night, and no forcing the door open to gain entry. The Knox Rapid Entry System reduces response time, property damage and the liability for lost keys. The Salem-Morrow Fire Department is currently using the Knox System on several properties in the area.

Residential KNOX-BOX® Program: The Salem/Morrow Fire Department has started a Residential Knox Box Program to help us help you. What is Knox Box? It's a heavy duty box that we hang on your door that has your home key in it. We have a Master key that we use to open the box in an emergency situation so we can make access to your home and let us help you.

The reason we started the program is to help us make entry to our citizens without causing damage to their property. We receive calls to residents homes and when we get there we are unable to make access do to the house is locked up tight. We end up breaking into the house to help with their emergency and then they have an extra expense fixing what we had to break. Residents stop by and offer us keys so we do not have to break in. That would be a lot of keys for us to have and maintain. This would cause more of a hindrance then help. This program is for residents that have chronic medical problems, elderly folks that live alone, persons with disabilities that would make it hard for them to let us in, and that live in our protection area. If you are not sure if you qualify, contact Chief Harrison. This is a free service provided to our residents for as long as they need it.

This program was started by donations to the fire department. We have purchased 6 Knox Boxes and Key Secure Systems. The Key Secure Systems secures the key to the vehicle and tracks who uses it. This gives us an accountability system on the use of the key. Supplies are limited.

Salem/Morrow Fire Department Cadet Program

The Salem/Morrow Fire Department Cadets is a youth oriented program directed at helping young adults who have an interest in the field of firefighting and Emergency Medical Services, as well as, to assist the Salem/Morrow Fire Department when able.

The program meets on the 1st (first) Monday of the month at the fire station at 1800 hrs. Cadets are required to participate in the department's fire training, held the 2nd (second) Monday of each month at 1830 hrs. Cadets are taught the basic skills of firefighting and first aid. Much of the training is hands-on and is supervised by Fire Department personnel. Meetings also include public service projects and fund raising activities.

Cadets are allowed to respond with the department to any "station response", provided that he/she is not serving any type of suspension – school or program. During the school year, cadets are permitted to make runs from the time that school is dismissed for the day until 9:30pm, only if school assignments are complete or at the discretion of parents/guardians. If cadets are on a response close to the 9:30pm cut-off, every attempt will be made to return them to the station to meet their parents/guardians or to take them home. During school vacations/breaks, cadets are allowed to run around the clock, but only at the discretion of his/her parent/guardian.

Cadets will learn how hard work, discipline, and a structured work environment in the fire service promote safety and teamwork toward successfully completing a common objective. All members shall be trained and certified in Basic First Aid and C.P.R. Cadets will also gain a sense of pride in serving the community. Parents will witness the positive outcome by having their child enroll in this growing program.

The Cadets are always in search of energetic young men and women who are eager to learn more about the fire service. Any student between the ages of 14 and 18 years of age with a grade point average of 1.0 or greater is eligible to apply.

Viox Excavating 6-Month Reminder

It's time to divert your septic system. Doing this twice a year helps your septic or mound system lasts a lifetime. For more insights, see our free report [Prevent Septic System Nightmares! 6 Things You Need To Know.](#)

Diverting Your Septic System Instructions

1. You'll need a "key" to do this. One was provided as a part of the septic system installation and may be stored inside one of the risers on your tank. If your key has been misplaced, a replacement can be purchased from your local hardware store.
2. Take the lid off the white PVC pipe that sticks up out of the ground. You will see a 1 and 2 at the 11:00 and 1:00 positions. (If they are obscured by mud, pour water in to rinse them.)
3. Use the key to turn the valve to the other number. It may be quite difficult to turn but will not break.
4. Return the lid and forget about it until you receive your next reminder in 6 months.

Additional Reminders

Six months from now, and every 6 months thereafter, you'll receive an email reminding you to divert your system. If you move or want to stop receiving the reminders, you can always unsubscribe at the bottom of each email.

Viox Excavating

We're pleased to help you with all your excavating needs. In addition to septic and mound systems, we do:

- Pond Repairs
- Complete Lot Development
- Install Hauled Water Storage Systems
- Other Excavating Services

Please let us know if there is any way we can help.

Thanks,

The Viox Excavating Team

Little Miami Local School District News

Little Miami 2015 Quality Profile Report

Greetings from Little Miami Local Schools. I am pleased to share the third annual edition of our Quality Profile Report in the attachment below. We recognize strong, vibrant communities are made of stakeholder groups working to ensure the safety and education of all citizens. Since our financial challenges of a few years ago, our district has worked hard to rebuild in a fiscally responsible manner the quality of education for the children of our community and I wanted to share this annual update with you since you are all leaders in the many communities which encompass the 98 square mile Little Miami Local School District.

While Little Miami has made much progress in its efforts to recover and move forward from our past fiscal emergency challenges, there remains much work ahead to continue our recovery. At the recommendation of

the Business Advisory Council, our board of education unanimously voted to place a renewal of the current 5 year emergency levy on the November 3, 2015 ballot. Issue 7 asks our communities to continue support of this recovery with a renewal that is a zero percent increase.

We know strong schools, strong safety services, and strong local governments are key to supporting the success of our citizens in all of the communities in which we serve. Thank you for the service you provide the citizens of your respective communities.

Thanks for taking the time to review our Quality Profile. If you are interested in more information, I would invite you to attend our annual State of the District presentation on **September 28, 2015, at 7:00 pm** in our High School Auditorium.

Enjoy a Healthy Lunch at the Earl J. Maag Center

Are you tired of always eating alone? Is cooking becoming too much work? Are you looking for somewhere else to eat? Would you like to meet new friends and enjoy stimulating conversation? Are you finding it hard to make ends meet? If you answered "Yes" to any of these questions, then you may not be living as healthy as you can. Recent studies have shown that seniors who are live alone are at high risk for malnourishment and for dehydration. "Five days a week, fresh, nutritious meals are cooked in the WCCS 741 Center kitchen. Lunch is a special time of day and we try to make it even more so. Sometimes the WCCS lunch is that person's only full meal of the day. You can find a healthy, delicious meal at the Earl J. Maag Center, 124 Pamela Drive, Morrow, Ohio 45152," says Mary Catherine Faller, MS, RD, LD, Manager of WCCS' Nutrition Services. Lunch with two menu options is served at 12:00 pm (noon) every Monday-Friday. Find the daily menus online at www.wccsi.org. Incumbent Training for Advanced Manufacturing Now Available

In response to workforce needs being expressed by the private sector, our office created WIIN; a program that bundles like-minded training needs within Warren County businesses. Once bundled, WIIN interfaces with area educational partners to secure the best curriculum and rate to meet training needs.

WIIN's first training offering involves businesses in the manufacturing space, and classes are currently underway. Enrollment is on-going and once the appropriate number of employees are gathered, training modules can begin.

Flexible Training

The training program will cover 16 needed skills that have been expressed by the private sector. These skills cover a broad range of electric and mechanical needs from programming to blueprint reading. To allow maximum flexibility, each skill is taught in a separate module, and can be taken individually or in combination with other training. For specific details of each module, and to participate, please [e-mail](#) Matt Schnipke.

Partnering Organizations

This effort would not be possible without collaboration from multiple sources including the Warren County Small Business Development Alliance, the Warren County Chamber Alliance, and the Warren County Port

Authority. With the help of these participating organizations, WIIN hopes to deliver a quality training opportunity at a reduced cost to employers.

Buried Tax Law Changes - Part 2

A new temporary highway funding bill recently became law. Buried within this temporary bill (the highway money runs out again October 29, 2015) are several tax law changes that have nothing to do with highway funding. Most of the tax law changes are effective after December 31, 2015 or for the 2016 tax year.

Last week we took a look at some due-date changes and FBAR reporting changes. This week we will take a look at two other significant tax law changes.

Mortgage Interest Reporting

Lenders must report additional information relating to outstanding mortgage interest. Under current law, lenders must file mortgage information statements to individuals who pay more than \$600 in mortgage interest in a year. The new bill requires the statements to include the origination date of the loan, the amount of outstanding principal of the mortgage at the beginning of the year, and the address of the property securing the loan. This additional information is intended to reduce inaccurate reporting in the future. The new reporting elements go into effect for tax year 2017, so lenders and servicers don't have to report the new data elements until January 2018.

Adding the loan balance to Form 1098 will provide the IRS with the information to audit returns where the mortgage balance exceeds the \$1,000,000 acquisition debt limit.

Adding the date the loan originated on the Form 1098 will alert the IRS that the homeowner may have refinanced their acquisition debt and may now exceed the \$100,000 equity borrowing limit.

Requirement for Consistent Basis Reporting Between Estates and Beneficiaries

The act amends the tax code to mandate that anyone inheriting property from a decedent cannot treat the property as having a higher basis than the basis reported by the estate for estate tax purposes. It also creates a new code section which requires executors of estates that are required to file an estate tax return to furnish information returns to the IRS and payee statements to any person acquiring an interest in property from the estate.

The new law will place additional burdens upon the Executor of an Estate. Statements must now be issued that will identify the value of each interest in property acquired from the estate as reported on the estate tax return. The new basis reporting provisions apply to property with respect to which an estate tax return is filed after the date of enactment. These reporting statements must be issued within 30 days after the estate return was filed.
