The BIG Give Back Day, Honeysuckle Blitz at John Bryan State Park & Clifton Gorge State Nature Preserve

Join the Cincinnati Wild Flower Preservation Society, state botanist Rick Gardner, and Division of Natural Areas and Preserves (DNAP) employees and supporters as we sponsor Ohio’s largest volunteer effort to help remove that invasive alien, bush honeysuckle, from Clifton Gorge State Nature Preserve and John Bryan State Park.

Come help all your friends and kindred spirits continue the protection of this natural treasure. We need your assistance on invasive removal in some lovely areas along the Little Miami, opening up panoramic vistas of the river; natural areas of high diversity, with fine displays of spring wildflowers; as well as many large rock outcroppings and views of post-glacial cliffs with many groups of white cedar and scenic waterfalls. We will also be working in areas that DNAP and volunteers have been working in since our event in 2013.

This is going to be a terrific social, educational and work activity, with a barbeque grill-out lunch provided afterward. The state’s best naturalists, botanists, geologists, ecologists, and wetland specialists will be leading organized hikes after 1:30 pm and will be available to discuss this wonderful geological feature and answer your questions.

We’ll be working in organized areas along more than two miles of the gorge, as well as some of the special areas in the scientific area of the state nature preserve.

These areas have been selected for their biological diversity, to enhance visibility of natural features, and to improve the experience for the many thousands of people who visit this preserve annually.

Registration: 8:00–9:00 am

Honeysuckle removal: 9:00 am–noon

Lunch: noon–1:30 pm with camaraderie, presentations, and Q & A

Organized hikes: 1:30–3:00 pm

Please contact Christine Hadley at 513-850-9585, or email christinehadley@earthlink.net, for more information, to sponsor the event, or to tell us where you would like to volunteer.

Sign up your team of four or more volunteers or donate a minimum of \$50 for your organization’s recognition.

Volunteers needed:

- * Crew leaders for honeysuckle removal teams
- * Honeysuckle cutters (loppers, non-power equipment)
- * Chainsaw & steel blade trimmer operators (must be pre-registered)
- * Cut stump treatment (using spray bottles)
- * Registration: meet and greet volunteers
- * Lunch: set up tables and chairs, minimal food prep
- * Couriers: take teams to their worksites

- * Botanists/knowledgeable volunteers: help cutters ID plants (to be sure not to cut hydrangea, blue ash, spicebush, bladdernut, etc.)
- * Agile volunteers to maneuver the rock outcroppings in the gorge to cut and treat woody invasives in, on, and around the rocks. (Most areas are much easier to work than the rock outcrop areas.)

Bring your favorite tools: gloves, pruners, loppers, saws, trimmers and protective gear for power equipment. We will provide tools and safety equipment to volunteers new to honeysuckle removal. Spray bottles for cut stump treatment will be furnished.

There will be an area for organizations to set up table displays and literature.

Please invite your friends to join in the fun!

Directions: Clifton Gorge SNP and John Bryan SP are located in Greene County on State Route 343, east of Yellow Springs and west of Clifton. Look for signs directing you to the event as well as additional email instructions.

What's better than planting trees? Killing honeysuckle! If you take the time to manage for the invasive plants that are filling the forest niche, then there is room for the tree seedlings to grow on their own. Removing invasive honeysuckle also makes the surrounding mature trees healthier!

This is a very well run annual event and is well worth your time and energy to volunteer on **Saturday, November 7th**. You can see from the list below that all sorts of volunteers are needed with all skillsets, plus John Bryan and Clinton Gorge are two of the most beautiful places we have in SW Ohio. Please contact Christine Hadley at 513-850-9585, or email christinehadley@earthlink.net, for more information, to sponsor the event, or to tell her where you would like to volunteer.

Help the Salem-Morrow Fire Department Protect Your Dreams

The quicker the Salem-Morrow Fire Department's firefighters or EMT's can locate you, the quicker we can begin helping you and your family. In an effort to locate your home or business in an emergency, the Salem-Morrow Fire Department is providing a 6" x 18" reflective sign that will clearly display your street address. These signs are invaluable to firefighters, EMT's, and police officers, who may be looking for your home in your time of need. Similar signs have been installed in other communities with startling results. The Salem-Morrow Fire Department is selling these signs at the low cost of \$12.00 each. If you wish to have the SMFD mount your sign for you, they will do so for \$14.00. Each sign has your street address prominently displayed on both sides in highly reflective 3" numbers against a green background similar to those on an interstate sign. The signs are installed in such a way that assures their visibility, even in high grass and snowy weather. If you would like to purchase one of these signs, simply stop by the Salem-Morrow Fire Department, 5270 East U. S.

Route 22 & State Route 3, Morrow, Ohio 45152, to complete an order form. In approximately 7 days, your sign will be ready for pickup or installation. Generally, the signs can be made, while you wait, in less than 10 minutes. Isn't \$12.00 worth the peace of mind of knowing that help can find you in your time of need?

KNOX-BOX® Rapid Entry System

The KNOX-BOX® Rapid Entry System was specifically developed for the fire department. With one master key, you can gain access to commercial and residential property. More than 7,000 departments nationwide use Knox key boxes, vaults, Haz-Mat cabinets, key switches, locking FDC caps, padlocks and the Knox-Scan heat sensor.

Many of these departments use Sentralok(tm), the master key security system, to control the Knox Master Key®. Property owners in your community store entrance keys, access cards and floor plans in high-security Knox-Boxes mounted near their building entrances.

Commercial Properties: Each KNOX-BOX® purchased by the property owner is keyed to a single master key controlled by your department. With the Knox System, there is no cost to the fire department, no waiting for a property owner to unlock the door in the middle of the night, and no forcing the door open to gain entry. The Knox Rapid Entry System reduces response time, property damage and the liability for lost keys. The Salem-Morrow Fire Department is currently using the Knox System on several properties in the area.

Residential KNOX-BOX® Program: The Salem/Morrow Fire Department has started a Residential Knox Box Program to help us help you. What is Knox Box? It's a heavy duty box that we hang on your door that has your home key in it. We have a Master key that we use to open the box in an emergency situation so we can make access to your home and let us help you.

The reason we started the program is to help us make entry to our citizens without causing damage to their property. We receive calls to residents homes and when we get there we are unable to make access do to the house is locked up tight. We end up breaking into the house to help with their emergency and then they have an extra expense fixing what we had to break. Residents stop by and offer us keys so we do not have to break in. That would be a lot of keys for us to have and maintain. This would cause more of a hindrance then help.

This program is for residents that have chronic medical problems, elderly folks that live alone, persons with disabilities that would make it hard for them to let us in, and that live in our protection area. If you are not sure if you qualify, contact Chief Harrison. This is a free service provided to our residents for as long as they need it.

This program was started by donations to the fire department. We have purchased 6 Knox Boxes and Key Secure Systems. The Key Secure Systems secures the key to the vehicle and tracks who uses it. This gives us an accountability system on the use of the key. Supplies are limited.

Smoke Detectors

The Salem/Morrow Fire department offers smoke detectors to the community it serves. Please contact the station for more details at 513.899.2222.

Free Blood Pressure Checks at the Salem-Morrow Fire Department

The Salem/Morrow Fire department staffs a member of the department at the fire station at all times. Anybody is welcome to stop by for a free blood pressure check or for any health concern. That's what we are here for. If you feel you are having a medical emergency please call 9-1-1 and we will come to you.

Viox Excavating 6-Month Reminder

It's time to divert your septic system. Doing this twice a year helps your septic or mound system lasts a lifetime. For more insights, see our free report [Prevent Septic System Nightmares! 6 Things You Need To Know](#).

Diverting Your Septic System Instructions

1. You'll need a "key" to do this. One was provided as a part of the septic system installation and may be stored inside one of the risers on your tank. If your key has been misplaced, a replacement can be purchased from your local hardware store.
2. Take the lid off the white PVC pipe that sticks up out of the ground. You will see a 1 and 2 at the 11:00 and 1:00 positions. (If they are obscured by mud, pour water in to rinse them.)
3. Use the key to turn the valve to the other number. It may be quite difficult to turn but will not break.
4. Return the lid and forget about it until you receive your next reminder in 6 months.

Additional Reminders

Six months from now, and every 6 months thereafter, you'll receive an email reminding you to divert your system. If you move or want to stop receiving the reminders, you can always unsubscribe at the bottom of each email.

We're pleased to help you with all your excavating needs. In addition to septic and mound systems, we do:

Little Miami 2015 Quality Profile Report

Greetings from Little Miami Local Schools. I am pleased to share the third annual edition of our Quality Profile Report in the attachment below. We recognize strong, vibrant communities are made of stakeholder groups working to ensure the safety and education of all citizens. Since our financial challenges of a few years ago, our district has worked hard to rebuild in a fiscally responsible manner the quality of education for the children of our community and I wanted to share this annual update with you since you are all leaders in the many communities which encompass the 98 square mile Little Miami Local School District.

While Little Miami has made much progress in its efforts to recover and move forward from our past fiscal emergency challenges, there remains much work ahead to continue our recovery. At the recommendation of the Business Advisory Council, our board of education unanimously voted to place a renewal of the current 5 year emergency levy on the November 3, 2015 ballot. Issue 7 asks our communities to continue support of this recovery with a renewal that is a zero percent increase.

We know strong schools, strong safety services, and strong local governments are key to supporting the success of our citizens in all of the communities in which we serve. Thank you for the service you provide the citizens of your respective communities.

Thanks for taking the time to review our Quality Profile.

Warren County Career Center News

Superintendent Forms Community Facility Committee

With the recent failure of the much-needed replacement levy to relieve overcrowding and fund critical repairs in the center, the Warren County Career Center is now taking a hard look at a big need but very limited options. As a way to address those needs, the superintendent announced a community-based and transparent process which involves the formation of a Facilities Committee.

"The need did not go away with the levy failure," noted WCCC Superintendent Maggie Hess. "Rather, it has only worsened and made our situation even more critical by the day. We have a failing HVAC system, antiquated plumbing and no fire suppression system in most of the building and much more. We must do something because we have such serious needs. Choosing to do nothing is not an option."

Once bundled, WIIN interfaces with area educational partners to secure the best curriculum and rate to meet training needs.

WIIN's first training offering involves businesses in the manufacturing space, and classes are currently underway. Enrollment is on-going and once the appropriate number of employees are gathered, training modules can begin.

Flexible Training

The training program will cover 16 needed skills that have been expressed by the private sector. These skills cover a broad range of electric and mechanical needs from programming to blueprint reading. To allow maximum flexibility, each skill is taught in a separate module, and can be taken individually or in combination with other training. For specific details of each module, and to participate, please [e-mail](mailto:) Matt Schnipke.

This effort would not be possible without collaboration from multiple sources including the Warren County Small Business Development Alliance, the Warren County Chamber Alliance, and the Warren County Port Authority. News You Can Use

Inflation Adjusted 2016 Income Tax Rates

Thomson Reuters is forecasting the tax rates for next year and predicting they will be adjusted upward in line with modest inflation.

The report, Projected 2016 Inflation-Adjusted Tax Brackets and Other Key Figures, demonstrates that, despite modest inflation in the past year, tax brackets will be adjusted upward in 2016, easing the tax burden slightly for many taxpayers. The adjustments prevent the loss of tax benefits due solely to inflation.

The report provides a detailed projection of inflation-adjusted income tax brackets, standard deduction and exemption amounts, and many other tax items for 2016 to equip professionals, their clients, and compliance software developers with information needed for tax planning and preparation.

According to the report, the minimum gross income thresholds for filing in 2016 have increased a bit. They are based on the basic standard deduction, which increases for heads of household, the additional deduction, and the exemption amounts, which will increase to \$4,050. Also notable is the starting point for the phasing out of taxpayers' personal exemptions, ranging from \$311,300 for spouses filing jointly/surviving spouses and \$285,350 for heads of household to \$259,400 for single taxpayers.

The same higher dollar thresholds will apply to the phase out of itemized deductions. That's compared to this year, when phase outs began at \$309,900 of adjusted gross income for joint filers, \$284,050 for heads of

household, and \$258,250 for singles. The higher phase out levels prevent inflation from eating into the value of these deductions.

The report is based on calculations derived from the most recent Consumer Price Index data published by the Bureau of Labor.
